The Newsletter Of AARP Chapter 1952
 Warner Robins, Georgia
"To Serve – Not To Be Served"
 www.Choice1952.com

Meeting Dates/Time: **Wednesday, July 23rd** and **Wednesday, August 27th** (10:00 A.M.)
 Location: Wellston Center - 152 Maple Street | Warner Robins, GA 31093

Officers	Names	Telephone	Board Of Directors	Telephone
----------	-------	-----------	--------------------	-----------

President	John Echols	953-5060	Rosita Huckeba	987-7220
Vice President	Allison Caruso	923-7219	Howard Jordan	929-2202
Secretary	Ivis Bedrick	923-4533	Grace Jordan	929-2202
Treasurer	Nancy Harrison	922-1526	Suzanne Burgess	922-2003
Chaplain	Winona Smith	923-6997	Phyllis Blount	956-4134
Choice Editor/Typist	Greg Davis	318-0471	Betty Lou Lovain	922-7774

Birthdays For July					
Helen Daily	1 st	Trudy Deep	5 th	Leonard Hummel	7 th
Winona Smith	11 th	Ruth Bean	15 th	Shirley Murphy	16 th
Mable McCord	18 th	Sadie Holt	20 th	Ned Sanders	21 st
Bernice Fennell	23 rd	Maureen Echols	24 th	Judson LaRoche	27 th
Ruth Peck	29 th				

Birthdays For August					
Clyde Mathé	5 th	Vi Hanson	9 th	James Strawn	12 th
Jean Hendry	13 th	Leon Leonard	15 th	Virginia Lineberry	16 th
Sylvia Ellenberg	19 th	Stella Broom	25 th	James Kling	26 th
Doris L. Edleman	27 th	Irene Eaves	28 th	Allison Caruso	28 th
Jeanette Attaway	29 th	Dot Dauby	31 st	Evelyn Boster	31 st

For each new morning with its light, For rest and shelter of the night, For health and food, For love and friends, For everything Thy goodness sends. Ralph Waldo Emerson (1803-1882)
"Blessed are those who mourn, For they shall be comforted." Matthew 5:4
President's Corner: Reminders - The **September** (Pollack) meeting will be on the **third Wednesday, September 17th** due to the **Special Olympics** being held in the Wellston Center on the **fourth Wednesday, Yard Sale** (First Week in October). **November's** meeting will be on the **third Wednesday, Nov 19th**, due to Thanksgiving on the fourth Thursday. **Christmas Party - Friday, December 12th at 5:00 P.M.!**
 John
 Gas comparison websites have been around for years - they help you find the best prices by Zip Code. Here are five: 1. www.GasBuddy.com - the granddaddy of gas price websites. 2. Get price changes at stations within 72 hours at www.GasPriceWatch.com. 3. The AAA's www.FuelCostCalculator.com calculates road trip costs based on your vehicle's make and model. 4. Updates from 90,000 stations are at www.Autos.msn.com/everday/gasstations.aspx. 5. www.AltFuelPrices.com has alternative fuel costs and stations.

SEE CANCER TREATMENT >>

One sleepless night, the retired radio and TV executive envisioned using radio waves to treat cancer. In his childhood, he had built radio sets. He understood that radio waves could harmlessly pass through a living organism but were attracted by metal. Once his primitive tests showed promise, the senior citizen built radio-wave equipment and conducted experiments in his garage. He invested \$200,000 of his own money to build prototypes of his radio frequency (RF) equipment. Support and funding for his efforts have since materialized from many sources. His Kanzius RF Machines are now selectively placed in laboratories at the University of Pittsburgh and at MD Anderson Cancer Center in Houston, Texas.

The potential new treatment that Kanzius envisioned was featured on CBS' "Sixty Minutes" (April 13, 2008). In theory, it involves gold or carbon nanoparticles injected into the bloodstream or into a cancerous tumor. These metallic-faced nanoparticles, already FDA-approved, attract radio waves. Once the diseased cells are properly targeted, radio waves would heat them to an optimal temperature to eradicate them. The idea is to destroy cancer cells, leaving healthy cells undamaged. Nanoparticles are so tiny that trillions of them can be contained in a test tube. The chief problem is finding a delivery system in which the nanoparticles would bind only to cancer cells. How did a man without a medical degree or credentials as a lab scientist come up with a revolutionary idea to treat cancer? Diagnosed with liver cancer six years ago, John Kanzius had endured thirty-six rounds of chemotherapy. During his treatments at a renowned cancer center, he was touched by the faces of young cancer patients, children with teddy bears, fighting for their lives. It was then that he vowed to try to find a better way to fight cancer.

For those who have experienced chemotherapy, or watched their loved ones go through it, the idea of an effective cancer treatment with NO side effects seems like a dream come true. Dreams can be a long time in coming, however. The brain child of American inventor John Kanzius may one day be the answer to the prayers of cancer patients. First, his Kanzius Machine must be rigorously tested in laboratory animals before clinical trials are approved for cancer patients. Preliminary lab testing has shown great promise.

New Cancer Treatment on the Horizon?

Our newsletter - in addition to being online - is distributed to members, non-members and businesses. If **ANYONE** is interested in advertising in our newsletter please contact me! Advertisment rates are **ONLY \$4.00/Month (\$48.00/Year - P/rated)**! As **you** Editor I'm open to suggestions for our newsletter! So please get your newsworthy information and/or photographs to me as soon as possible! I'm easy to contact ... **478/318-0471** and/or via e-mail at gдавismail@gmail.com Sincerely,
 Greg (Formerly Known As "Da Baby") Davis ggd ©

We're able to provide our newsletter from the support of advertisers. We sincerely appreciate all advertisers (past and present) and - with **everyone's** assistance - we'll get (and keep) new advertisers as well!
Editor's Notes
AARP Defensive Driving Classes: Contact Lynn Partilio at 478/971-4473.
Evening Classes: Contact Paul Bennett at 478/783-1988 (Hawkinsville Number).

Attention Readers Of This Newsletter: "Local Chapter Membership" Has Its Rewards **And Privileges!** Members: Please keep your dues (only \$5.00/year) and membership directory information (birthday, address/phone number, etc) current! If you are NOT a member of our local chapter **but** you are a member of AARP please consider joining us ... only \$5.00/year! Thank you! ggd ©

BLOOD TEST (Continued) Looking at other risk factors such as sex, age, smoking, and elevated cholesterol levels, this new maker provides additional information that other tests don't reveal. It is still unclear, however, whether the test is valuable for predicting risk in asymptomatic heart patients thought to have stabilized their heart disease.

Also unknown is whether the test could prove useful for identifying heart disease risk in the general public. At this point, it is best utilized with patients with established heart disease. Its role in disease management is still not clear. Those with elevated **NT-proBNP** can be treated very aggressively, but most patients with serious heart conditions are already being treated in that manner.

More study is needed to determine the value of the **NT-proBNP** test, the subject of the study at the University of California, San Francisco and the San Francisco VA Medical Center.

A Reader Cautions As Follows: *"These medical advances are great as long as your health care provider is able to provide them and understands how to use them. If you live in a rural area or are served by a lab or physician you suspect has not kept pace with advances in medical technology, beware. I learned the hard way when my rural hospital emergency room could not interpret a simple test used to detect a heart attack. Sent home with medication for indigestion on a Friday, I wisely consulted a cardiologist on Monday after a very painful Sunday when I probably suffered a second attack but shrugged it off as more gastric problems. On Wednesday, I had an angioplasty. My advice is to check the qualifications and reputation of your provider before you seek testing/treatment. It could save your life!"*

Two lovers interested in spiritualism and reincarnation vowed that if either died, the one remaining would try to contact the partner in the other world exactly 30 days after their dying. As luck would have it, a few weeks later the young man died in a car wreck. True to her word, his sweetheart tried to contact him in the spirit world exactly 30 days later.

At the séance she called out, *"John, dear John, this is Martha. Do you hear me?"* A ghostly voice answered her, *"Yes, Martha, this is John. I can hear you."* Martha tearfully asked, *"Oh John, what is it like where you are?"* *"It's beautiful. There are azure skies, a soft breeze, sunshine most of the time."*

"Well, what do you do all day?" asked Martha. *"Well Martha, we get up before sunrise, eat some good breakfast, and there's nothing but sex until noon. After lunch we nap until two and then have more sex until about five. After dinner we go at it again until we fall asleep about 11pm."*

Martha was somewhat taken aback. *"Is that what heaven really is like?"*

"Heaven? I'm not in heaven Martha."

"Well then, where are you?"

"I've been reincarnated as a jack rabbit in Arizona!"

Meeting Dates/Time:
Wednesday, July 23rd and
Wednesday, August 27th (10:00 A.M.)
 Location: Wellston Center
 152 Maple Street | Warner Robins, GA 31093
